Complying with U.S. Export Controls

June 13 & 14, 2013

8:30 am - 4:30 pm

Holiday Inn

Seattle/SeaTac International Airport

17338 International Boulevard

Sea-Tac, WA

The Holiday Inn is conveniently located right next to the [Link Light Rail Station](#), which provides fast and easy transportation to and from Downtown Seattle

This two-day program is led by BIS's professional counseling staff and provides an in-depth examination of the Export Administration Regulations (EAR). The program will cover the information exporters need to know in order to comply with U.S. export control requirements on commercial goods. We will focus on what items and activities are subject to the EAR; steps to take to determine the export licensing requirements for your item; how to determine your export control classification number (ECCN); when you can export or re-export without applying for a license; export clearance procedures and record keeping requirements; Export Management System (EMS) concepts; and real life examples in applying this information. Presenters will conduct a number of "hands-on" exercises that will prepare you to apply the regulations to your own company's export activities. This program is well suited for those who need a comprehensive understanding of their obligations under the EAR.

The instructors are experienced export specialists and enforcement personnel from BIS's field offices. They will be available throughout the seminar to answer your questions on how the export regulations affect the export activities of your organization or client. ***All Seminar Training Materials will be provided***
